The Château of Fontainebleau

With over 1500 rooms at the heart of 130 acres of parkland and gardens, Fontainebleau is the only royal and imperial château to have been continuously inhabited for seven centuries. A visit to Fontainebleau opens up an unparalleled view of French history, art history and architecture.

Discovering the château

A special route takes you on a journey to meet the many rulers who called Fontainebleau their own. You will discover the château's iconic locations such as the Francis I Gallery and the Galerie des Cerfs, some of which are closed to the public.

The town of Fontainebleau

The town of Fontainebleau is inextricably linked to its forest and its château. It grew as a result of its contact with the kings of France and the court over period of eight centuries. It has retained considerable evidence of this link in its layout and its architecture. As a horse centre and rock-climbing mecca Fontainebleau delights everyone.
